

HOUSE GLASS

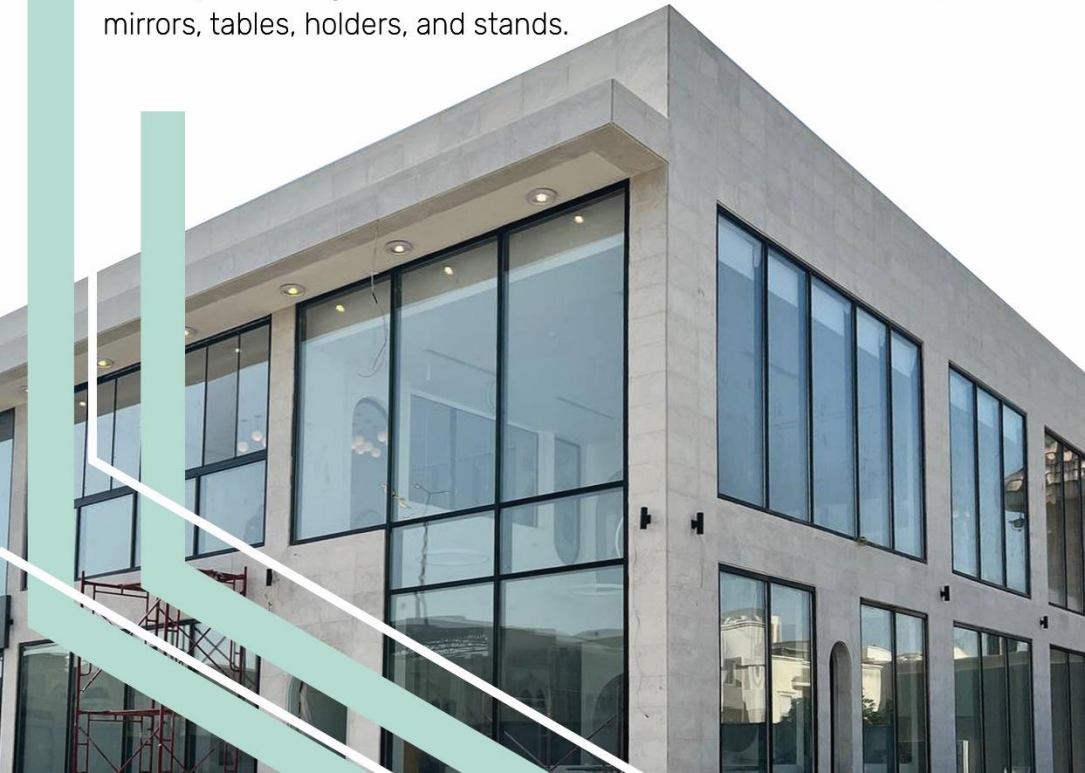

Glass Trading
Company

HOUSE GLASS COMPANY

We are a company that meets all your glass needs in various colors and thicknesses to suit your needs and designs. We provide you with glass and aluminum in addition to installation.

We have a wide range of products from standard windows, such as regular sliding windows in addition to curtain glass windows that depend on folding, which is a popular choice for customers who are expanding their homes, as is the case with the skylight to flood the new room with natural light.

We also install external facades in addition to installing everything that depends on glass in interior decoration from shower rooms, mirrors, tables, holders, and stands.

MISSION

We deliver a glass products & windows buying experience that empowers our customers to expect a high-quality solutions-focused process with access to leading-edge industry products and technology.

VISION

Set a new standard of excellence for window & faced contractors that raise the bar when it comes to first-class customer service.

VALUES

At House Glass Company we stand by our:
Elite customer service
Solutions-based decisions
Hard work and dedication
Driven to Exceptional Practices in Glass.

Glass Curtain System

Our company provide single and double sliding glass curtain systems, which is an ideal solution for the complete coverage of your facades. Our sliding panel system can manipulate the spaces in houses, hotels and offices, which allows the bottom profile of the glass to move on its ground tracks.

They are a great option for those who want to create a unique and open feel in their home.

Our system provides perfect thermal and sound insulation, which is an advantage over other systems that rely on roof rails that can be affected by moisture and heat.

The total width unlimited for **The Larger Facilities**

Our system is designed to adapt to any space. As our products are one of the most versatile and adaptable systems, we can accomplish any formation.

Our technical department consists of highly qualified specialists to get the best solution for your project.

Our system gives you the preference to:

Choose the type of glass that suits you (Tinted - Sunlight Reflective).

Choose the color of aluminum to suit your space.

Choose door opening method and lock type.

Max Dimensions

Panel Width up to

80 cm

Fixed Doors up to

90 cm

Panel Height up to

366 cm

Mirrors

We supply mirror panels and install them in sizes suitable for your design and according to your desire.

We are passionate about great design and offer a wide range of options to suit any decor.

Our diverse range of products means you will always find the perfect piece.

We have large dimensional panels 1830 * 2927 mm that are suitable for large projects such as gyms, hotels, salons, halls, we also service other large facilities such as karate studios, dance studios, physical therapy offices, etc.

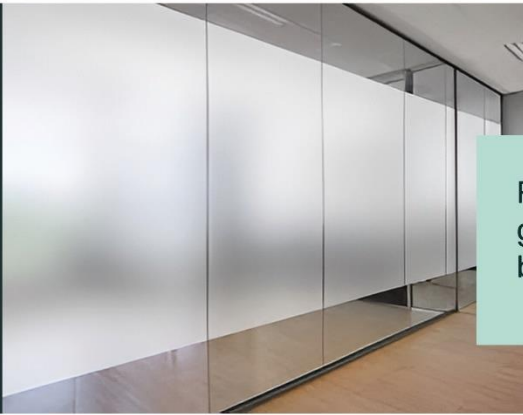

We have mirrors with hidden lighting in three colors: white, solar, and both colors together.

Glass Worke

At HOUSE GLASS, we help homeowners and businesses enhance their properties with high-functioning and aesthetically breathtaking glass installation. Whether you want to create your dream bathroom, a custom conference room, or any other custom glasswork our team has you covered.

No matter what concept you have in mind for your space, we will help you bring your vision to life with expert precision. We design, cut, and install glass shower enclosures, as well as other specialty elements like glass tabletops, shelves, railings, and more.

Frosted glass is a translucent glass which gives a blurry imagery but still transmits light.

Reflective glass is a glass that has been treated with advanced coatings to reflect heat & radiation from sunlight while allowing the natural light to enter.

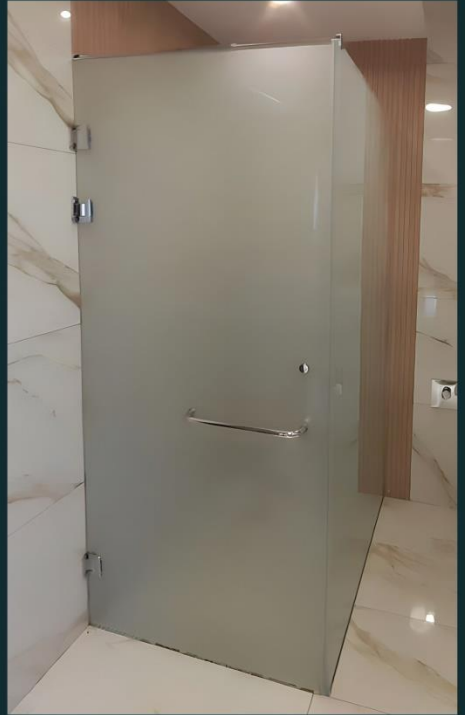

Laminated glass consists of two or more glass layers permanently bonded together with one or multiple layers of polyvinyl butyral (PVB).
